MICRO NEEDLING 'MENU'

FACIAL:

- Sessions begin with an assessment of your face tissue and discussion of your menu choices. A few 'body' acupuncture points are applied to enhance lymph or for constitutional health.
- Price includes one *free* add-on *or* topical numbing lotion.
- Sessions end with a cooling facial mask and a few more 'body' acupuncture points.

Add-Ons:

\$50 for one, \$20 for one more

- Décolleté
- Crown & sides of the scalp (\$15 to *add* the back of the scalp)
- 1-3 Bald spots or BROWN (liver) spots² (\$15 for additional spots)

The following areas are often *very thin*-skinned and may need to be treated with a finer microneedle tip called a nanoneedle. Adding the nanoneedle tip is \$15.

- Eyebrows
- Under-eye 'bags' (nanoneedling tip is 'required' for everyone)
- Back of the hands

Topical herbal serums to address your specific skin aging concerns are sold separately. Anti-aging Chinese Herbs also support bone density and sleep quality. Ask for details!

¹ Microneedling for 'facial' rejuvenation sessions are scheduled every 4-6 weeks to allow time for a layer of skin to turn over. A minimum of three and maximum of six treatments are recommended. Sessions scheduled within 6 weeks are discounted by \$50 per session. Additional, weekly acupuncture with regular needles (not microneedles) to subcision under deep wrinkles is available for \$50 a session, a discount from \$80.
Scheduling times are limited. Plan ahead.

² Bald spots, Brown spots and head hair treatments can be done twice a month rather than once a month. They require a longer course of treatment and topical herbal products.
